---

Senior UI/UX Designer with over 9 years of experience designing enterprise-grade digital products across maritime operations, HR systems, government platforms, banking tools, education systems, and chatbot ecosystems. Experienced in leading end-to-end product design, UX strategy, and design system development for complex workflow-driven applications. Strong capability in bridging design and development through interactive prototyping and developer-ready UI implementation.

CORE SKILLS

• **UX & Product Design:** UI/UX Design, Product Design, Information Architecture, Workflow Design, Wireframing, Prototyping, User Flows, Journey Mapping, UX Strategy, Research & Audits, Usability Testing, Enterprise UX, Dashboard Design, System Thinking

• **Design Systems & Frontend Collaboration**: Scalable Design Systems, Component-Based Architecture, Design Tokens, UI Kits, Responsive Design, Accessibility (WCAG 2.1), Design Consistency

• **Frontend Technologies:** HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, Ant Design, DevExtreme (ASP.NET UI Framework)

• **Design & Prototyping Tools**: Figma, Axure RP, Adobe XD, Photoshop

• **Prototyping Capabilities:** High-fidelity prototyping, Interactive workflows, Rapid prototyping, Design validation

• **Collaboration Tools:** Jira, Trello, Slack, Microsoft Teams, Microsoft 365

• **AI & Automation** (Exploratory): AI-assisted prototyping, AI design plugins, Design-to-code tools, Workflow automation

PROFESSIONAL EXPERIENCE

Independent AI-Assisted UI/UX & Digital Product Designer
Freelance / Independent Practice
July 2026 - Present

Providing UI/UX design and AI-assisted prototyping for government agencies, private businesses, and corporate organizations.

• Design and develop interactive POCs for internal web applications and business workflows.
• Provide ongoing UI/UX design support for an existing enterprise software platform, including interface improvements and reusable UI components.
• Use AI-powered tools to accelerate development while ensuring usability, accessibility, and design consistency.

Lead UI/UX Designer
Ripple Operations (formerly ShipAdmin Philippines Inc., acquired via Adonis HR)
November 2022 - June 15, 2026

• Sole UI/UX Designer responsible for enterprise maritime workforce and fleet management platforms
• Lead end-to-end product design for complex workflow-based internal systems used for operations and administration
• Designed high-fidelity interactive prototypes using Axure, HTML, CSS, and JavaScript to simulate real system behavior before development
• Built responsive, developer-ready UI templates using Bootstrap and DevExtreme, improving implementation efficiency
• Established centralized design system and reusable UI component library to ensure design consistency across platforms

• Conducted UX audits and redesign initiatives for legacy enterprise modules, improving usability and workflow clarity
• Led UI modernization and rebranding initiatives following company acquisitions and system integration
• Collaborated closely with Product Owners and Engineering teams to define workflows, user interactions, and system requirements

Senior UI/UX Designer
Centralized Cloud Computing International Inc.
Feb 2017 - Nov 2022

• Led end-to-end UI/UX design for enterprise systems across government, banking, education, automotive, and chatbot platforms
• Introduced interactive prototyping workflows using Axure, improving stakeholder validation and reducing design ambiguity
• Transitioned organization from static wireframes to high-fidelity UX prototypes and collaborative design systems using Figma
• Created proof-of-concept prototypes used for client presentations and early-stage product validation
• Designed enterprise chatbot administration consoles and conversational UX systems for global clients
• Delivered UI specifications, wireframes, and developer-ready assets for multiple enterprise applications
• Participated in client workshops, requirements gathering, and solution presentations

SELECTED DOMAIN EXPERIENCE

• Enterprise Maritime Platform
• Human Resource Information System (HRIS)
• Government Digital Services Platform
• Admin Portals & Data-Heavy Dashboards
• Enterprise Resource Planning (ERP) System
• Learning Management System (LMS)
• Enterprise Banking Chatbot
• Automotive Conversational Platform
• Transportation Booking Platform
• Healthcare Digital Services
• Social Networking & Marketplace Application

ADDITIONAL ROLES

Project Coordinator: Managed project timelines, task tracking, and cross-functional coordination between design and development teams

Quality Assurance Tester: Performed functional and UX testing to reduce post-release issues and improve usability quality

CONSULTING EXPERIENCE

Consultant for Branding
FDA PHILIPPINES - Office of the Director General
September 2018 - May 2019

• Provided brand and visual asset design support, including packaging, campaign materials, and internal presentation kits

EDUCATION

Bachelor of Science in Business Administration Major in Computer Management
Colegio de San Juan de Letran
1998 - 2002
